

THE WORLD'S HOME FIELD.

Sixteen flags. One diamond. A new baseball pathway.

A proposed founding tournament that brings national-identity teams and neighborhood pride onto one New York City field. Local-first recruitment; paid playing opportunities as the goal.

BOROUGHES

THE ASK

Seeking a venue or operating partner, a lead commercial partner, and baseball operations expertise to scope and test the pilot.

Partner categories: venue and operations; media; merchandise and collectibles; food and beverage; community and financial services; travel and technology.

Current status: no confirmed venue or supporters. No approved budget range. Venue costs, pay, insurance, travel, production, marketing, and contingency must be scoped.

PLAYER FRAMEWORK

Proposed adult recruitment through NYC-area independent, collegiate, amateur, and community baseball networks. Players from outside the area need a travel, housing, availability, and work-authorization plan.

Eligibility, country ties, evaluations, and roster rules must be published before applications. Compensation and insurance require funding. Club contracts and any required permissions need review; contracted MLB/MiLB players are not assumed available.

ATTENDANCE: A MODEL, NOT A FORECAST

7,000 seats × separately ticketed sessions × average seat fill. Admissions count visits, not unique people.

FILL RATE	50%	70%	85%
31 sessions	108,500	151,900	184,450

At 100% fill: 217,000 admissions. At 16 combined sessions and 70% fill: 78,400. Excludes standing room; schedule and ticketing change the result. Capacity benchmark: MLB's Maimonides Park guide; no venue commitment.

CONDITIONAL ROAD TO THE FIRST PITCH

PHASE 01	PHASE 02	PHASE 03	PHASE 04
Scope & budget	Secure foundations	Recruit & prepare	Test the pilot

All milestones depend on funding, venue availability, operating agreements, and player terms. Expansion follows evidence from the pilot.
